

Thank you for visiting CMP at Marintec China 2015

CMP appeared at the Marintec China Exhibition held from Dec. 1st ~ 4th, 2015 at the Shanghai New International Expo Centre to promote company products and find new & better opportunities. Over 60,000 visitors have been counted (according to the organizer's release).

Attractive booth (with vessel-shaped counter) welcomed more than 600 exhibition visitors, who were very much interested in our core anti-fouling paints such as SEAFLO NEO / SEA GRANDPRIX series, other various product line-ups & CMP global supply network. We could also reconfirm the strong relationship with many customers.

We sincerely appreciate visitors and customers who visited our booth and look forward to seeing you again!
