

20 Apr. 2018

Dear valued customers,

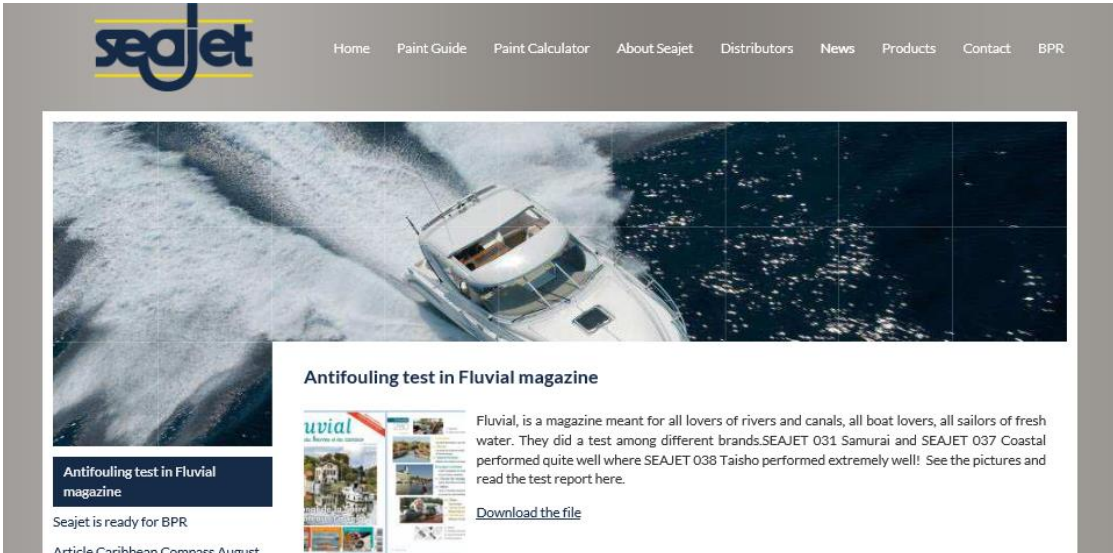

**Pleased to inform that our antifouling was featured in a magazine in France.**

Fluvial, is a magazine meant for all lovers of rivers and canals, all boat lovers, all sailors of fresh water.

They did a test among different brands and SEAJET 031 Samurai and SEAJET 037 Coastal performed quite well where SEAJET 038 Taisho performed extremely well!

See the pictures here.

The screenshot shows the Seajet website's navigation menu with links for Home, Paint Guide, Paint Calculator, About Seajet, Distributors, News, Products, Contact, and BPR. The main content area features a large image of a boat's wake and a news article titled "Antifouling test in Fluvial magazine". The article text reads: "Fluvial, is a magazine meant for all lovers of rivers and canals, all boat lovers, all sailors of fresh water. They did a test among different brands. SEAJET 031 Samurai and SEAJET 037 Coastal performed quite well where SEAJET 038 Taisho performed extremely well! See the pictures and read the test report here." Below the text is a "Download the file" link. A sidebar on the left contains the text "Antifouling test in Fluvial magazine", "Seajet is ready for BPR", and "Article Caribbean Compass August".
