Representative Masataka Uetake,
President and CEO
Office 1-7 Meiji-shinkai, Otake, Hiroshima
(Code #4617 First section of the
Tokyo Stock Exchange)
Contact Planning Dept.,
Administration Headquarter

Expansion of Shanghai Factory No.2

The construction of a new water-soluble paint plant has been completed on the site adjacent to the
existing Factory No.2 of Chugoku Marine Paints (Shanghai), Ltd. (Yasuyuki Kiseki, Management
Director), our consolidated subsidiary.

Completion: August 28, 2013
Extended site area: 13,334 square meters
(Area of the existing Factory No.2: 33,400 square meters)
Total floor area: 5,988 square meters
Production capacity: 18,000 tons/year
Production items: Water-soluble paint for containers, etc.
Location: Jiading, Shanghai
(About 30 kilometers northwest from the central Shanghai)

A water-soluble paint plant has been constructed on the site adjacent to Shanghai
Factory No.2, in line with the growing trend in China toward more stringent
environmental regulations. Three warehouses for dangerous goods have also been
constructed on the same site to supplement the limited capacity of the product
warehouse in the existing factory.

We will remain adapted to changes in the market with the development of new products,
and will continue to offer products with consistent quality and high levels of technical
service as we strive to enhance our market competitiveness.
